HOUSE OF SPIRITS

As a prime venue for celebrating local wines, the Swiss Wine Hotel and Bar has the ebullient atmosphere that puts everyone in the right mood.

The hotel has numerous facilities for staying guests and walk-in visitors to appreciate and understand the wines of the region.

Built to celebrate the wines of Lavaux, the Swiss Wine Hotel & Bar has both the ambience and facilities to set guests off on a journey to discover and enjoy what the region's vineyards have to offer. Its bar and wine cellar are dedicated solely to the region's produce and are ideal for wine tastings and events.

Located across the street from the city's landmark Gothic cathedral, the establishment was designed by Studio MHNA, infusing it with an urban style defined by fun and vibrant colours. Studio MHNA used a variety of materials to combine rusticity and modernity. The 62-guest room hotel also has a gym with sauna, a terrace, a breakfast room, and a bar that is accessible to the public.

Breakfast is served in a panoramic room with an incredible view of the cathedral and the old town. Walking into this contemporary space gives guests the juxtaposition between the boutique hotel and its surroundings, the beautiful old quarter of the city. 📷
